Commissioner:

Prior to the examination, please amend the above-identified application as follows:

In the Claims:

Please cancel claims 1-3 and add new claims 4-29. The now pending claims are:

- Sab B*
4. (NEW) A method for displaying television program information comprising:  
maintaining a television schedule database in a memory having a first area for storing  
a first portion of the database and a second area for storing a second portion of the database;  
storing television program data in the second portion of the database;  
storing an address to the television program data in the first portion of the database;  
receiving a user request to display a program guide;  
searching the first area of the memory for the address of the television program data;  
retrieving the television program data from the second portion of the database based  
on the address; and  
displaying the television program data in the program guide.

5. (NEW) The method of claim 4, wherein the first portion of the database stores  
the address of the television program data in a grid of times and channels.
